

Brahim Benzarti

Commerce Engineer | Shopify, BigCommerce & High-Converting Storefronts

brahim.benzarti@icloud.com · +352 661 821 707 · Esch-Sur-Alzette, Luxembourg · LinkedIn · GitHub

EXECUTIVE SUMMARY

Senior full-stack engineer with 8+ years building high-performance, SEO-optimized, and accessible web platforms using React and Next.js. Proven expertise in SaaS integrations (HubSpot, Chargebee, Adyen), subscription lifecycle management, and migrating complex systems (Angular to React, .NET to Node.js/NestJS). Deep knowledge of REST APIs, webhooks, async workflows, and secure OAuth flows with least-privilege principles.

EXPERIENCE

Senior Software Engineer, Shopify & React Platforms

2024-02-01 – 2026-04-01

Docler Holding Luxembourg · Luxembourg

Led development of multiple full-stack applications for international e-commerce brands using Next.js, React Router, and Remix.js, with architecture and deployment on Azure cloud infrastructure. Contributed to migration from .NET to Node.js/NestJS ecosystem.

- Led development of multiple full-stack applications for international e-commerce brands using Next.js, React Router, and Remix.js
- Contributed to architecture migration from .NET backend to Node.js/NestJS, improving development velocity and ecosystem alignment
- Built and deployed high-performance, SEO-optimized, accessible storefronts and web applications for global brands
- Oversaw AI-driven automation initiatives, integrating features like automated translation and intelligent reporting into production workflows
- Built Azure CI/CD pipelines, achieving a 70% reduction in deployment time and enhancing release reliability
- Collaborated with marketing and commercial teams to translate business requirements into technical solutions

Full Stack Developer

2022-10-01 – 2024-07-01

VGL Group · India (Remote)

Led full-stack engineering for MindfulSouls, building a subscription box platform with Chargebee integrations across Australia, France, and other regions, leveraging Chargebee's multi-region payment capabilities and subscription benefits.

- Led full-stack engineering for MindfulSouls subscription box platform using Next.js, Shopify Plus, and Node.js
- Designed and built robust Chargebee integration powering subscription boxes across Australia, France, and other regions
- Leveraged Chargebee's multi-region payment capabilities, billing cycles, and dunning workflows for international expansion
- Built custom ETL pipelines to migrate over 500,000 customer subscriptions with full validation and rollback safety
- Designed clean data flows across customer lifecycle (lead → account → subscription → user) with PostgreSQL
- Implemented resilient async workflows with webhooks, retry logic, and secure API integrations

Full Stack Developer

2022-07-01 – 2023-10-01

Foxelli Group · Lithuania (Remote)

Spearheaded development of recurring payment platforms integrating BigCommerce with Adyen, Shopify Payments, and other payment gateways, with robust subscription billing workflows.

- Spearheaded development of recurring payment platforms integrating BigCommerce with Adyen, Shopify Payments, and other payment gateways
- Architected subscription engines with flexible pricing, billing cycles, and automated dunning workflows across multiple regions
- Built resilient async workflows with webhooks, retry logic, and idempotency for payment event processing
- Enhanced backend performance by over 50% through query tuning and Redis caching, ensuring efficient financial workflows
- Implemented secure payment integrations with proper token handling, OAuth flows, and least-privilege API access

Shopify Themes Developer

2021-08-01 – 2022-09-01

EXPERTIFY – Expert Shopify · France (Remote)

Developed custom Shopify themes for various e-commerce brands, ensuring responsive and high-performance storefronts.

- Developed custom Shopify themes for various e-commerce brands, ensuring responsive and high-performance storefronts
- Tailored each theme to meet specific merchant UX and branding needs, enhancing user engagement
- Optimized Liquid templates and created dynamic sections to improve loading speed and conversion rates
